

# Ovine Brucellosis (*Brucella melitensis*) Antibody Detection Kit

## Product Information

---

### Product Overview

---

Virus Antibody Detection Kits

---

### Description

---

Detects antibodies against *Brucella melitensis*, the causative agent of ovine brucellosis.

---

### Size

---

48t/96t

---

### Applications

---

- Brucellosis screening in sheep
  - Pre-breeding or pre-export health checks
  - Disease surveillance in endemic regions
- 

### Features & Benefits

---

- High accuracy for *Brucella melitensis*
  - Reduces false positives through optimized specificity
  - Suitable for large-scale herd testing
  - Conforms to international testing guidelines
-
