

# Ovine Peste des Petits Ruminants Virus (PPRV) Antibody Detection Kit

## Product Information

---

### Product Overview

---

Virus Antibody Detection Kits

---

### Description

---

Detects antibodies to PPRV, a highly contagious virus affecting sheep and goats.

---

### Size

---

48t/96t

---

### Applications

---

- PPRV sero-surveillance in small ruminants
  - Evaluating herd immunity
  - Regional disease control programs
- 

### Features & Benefits

---

- High specificity for PPRV antibodies
  - Ideal for goat and sheep samples
  - Rapid, lab-friendly workflow
  - Supports eradication efforts
-
